

## SEMINAR – Health impacts of dietary transitions

Organized by START's HEALTH Hub

*Nutrition, food safety, consumer involvement and uptake*

**Date:** 18<sup>th</sup> September 2025

**Venue:** AgroFood Park 26-033, 8200 Aarhus N.

**Hosted by:** Alice Grønhøj, Sara Monteiro Pires and Christina C. Dahm

**Participants:** Junior and Senior researchers with interest in health, nutrition and sustainability

**Registration:** Please sign up [here](#) no later than Wednesday 11<sup>th</sup> September 2025

### Future dietary patterns: healthy, tasty, sustainable, and safe?

*The urgent need for food system change towards health and sustainability is driving innovation, public policy and consumer change globally. But what are the health impacts of these transitions, and what are the research priorities in guiding healthy, tasty, sustainable and safe population diets?*

*In this seminar, we will share ongoing research and findings by researchers from different disciplines at Danish universities and contribute to defining a research agenda/identifying needs and opportunities for research developments. The aims are to foster networking and foster collaboration among researchers, focusing on early career, and to provide a space for discussion of alignments, research gaps, and perspectives for collaborative projects.*

10.30-10.50: Coffee and networking

10.50-11.00: Welcome and introduction / by Alice Grønhøj, Sara Monteiro Pires and Christina C. Dahm

11.00-11.40: Two presentations from the Sustainable Food and Health Section, Danish Veterinary and Food Administration

**Research-based government advice: The Danish Veterinary and Food Administration's collaboration with universities** / by Laura Brandt

**Alternative protein sources: The official dietary guidelines and future research needs** / by Emil Steen Steensen

11.40-12.20: Three early career presentations (TBA)

12.20-13.20 Lunch

13.20-14.00: Early career flash talks (*selected from expressions of interest submitted*)

14.00-14.30: **Connecting the dots** / facilitated by Jacob Thyrsted Jensen and Christian Kvorning Lassen

14.30-14.45: Coffee break

**START**  
CENTRE FOR SUSTAINABLE  
AGRI-FOOD SYSTEMS

novo nordisk  
**foundation**

14:45-15.30: **Workshop session: setting research priorities in health impacts of dietary transitions /**  
facilitated by *Jacob Thyrsted Jensen* and *Christian Kvorning Lassen*

15.30-16:00 **Wrap-up: perspectives for collaborative projects /** by *Alice Grønhøj*, *Sara Monteiro Pires* and  
*Christina C. Dahm*
